UX Testing + UI Iteration

	User Interface: *How could the styling of elements be changed to make a more visually appealing, clear, and space efficient layout?* *(ex: sizes, colors, fonts, alignment, etc.)*	**User Experience:** *What elements of the user experience could be improved to make the puzzle more fun/satisfying?* *(ex: sounds, hover effects, etc.)*
User 1 Name: *Mr Eric*	• Visual appealing • Likes the background images • Around 700 px, the film and game gets cut off	• Change the flash of color, transition into the pages, make them black • Panic button makes page larger, adds scroll buttons (make css overflow 0) • Likes the hover sound effect • Show which website you on, make an indication that you are on "game" or "film" • Leave the home button in the same space instead of all around
User 2 Name: *Jared*	• Change the size of certain images	• I like t different things you can do, a lot of things • Give an indication for the images and what they do
User 3 Name: *Halima*	• Make film div black, make game div red • Color of car did not match the aesthetic	• I don't like the icecream truck sound because it's not the actual horn on the car • Make all images hover • Give indication for menu (choose your …)
User 4 Name: *Nick*	• Indicator for the two menu divs	• Something around the edge of website needs to be changed • Change the timing of pedal sound

User 5 Name: *Kai*	● Likes the website ● Likes that everything is clickable and plays sounds	● <mark>Make all images hoverable</mark> ● Make the images in the middle fill the whole box

| **UI Before Feedback** (Screenshot / GIF)	*What <u>trends</u> did you identify in your feedback?*
	● <mark>Give an indication for the images and what they do</mark> ● <mark>Something around the edge of website needs to be changed</mark> ● <mark>Show which website you on, make an indication that you are on "game" or "film"</mark> ● <mark>Make all images hoverable</mark> ● <mark>Change the timing of pedal sound</mark>
UI After Feedback (Screenshot / GIF)	*What <u>changes</u> did you make to improve your UI?*

- Made an indication for which screen your on "film" or "game"
- Change the timing of certain sounds
- Made all images hoverable
- Changed the problem with edge of website
